Our Vision

Secretary's & Chairman's vision

The Public School Kharod was established in 2007. The School aspires to produce a citizen who is abreast with the changing times, and yet rooted in his or her value system. At Public School Kharod, all efforts are made to strike a balance between the two.

"Knowledge is Power" is the motto of our school. It strives to make the children caring, helpful to others, environment sensitive, disciplined and above all a better citizen of the Nation. So that when he grows up, he contributes his bit in a constructive way.

Just as the liquid takes the shape of the container in the same way education flows into the body and takes the shape of man. So dear friends, we at the school aim to build bridges of honesty and respect, so that we can build a future for our children. A future in which they feel secure, gain strength, and can endure. So today, let us take a pledge to build bridges of hope. Bridge that is spanned by the rainbow of a bright tomorrow.

Principal's vision

***We are what our thoughts have made us, so take care about what you think,
Words are secondary, thought live,
They travel far.***
